

## Reach Compliance Policy

REACH is a European Community Regulation on Chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances. The regulation entered into force on 1st June 2007. Under the European Union (Withdrawal) Act 2018, the EU REACH Regulation was brought into UK law on 1 January 2021 and is known as UK REACH.

It is our policy that all products we sell comply with the requirements of EU REACH and UK REACH Regulations.

Preci-Spark Ltd is fully aware of the requirements of UK REACH and is fully compliant with the legal requirements of this directive. The policy aims to protect human health and the environment by ensuring that chemicals are adequately assessed and managed across the business.

We are not aware of any REACH related problems in our supply chain with regard to products we supply but will continue dialogue with our suppliers to ensure that circumstances do not change or that no new products have been added to our portfolio which may require action, on behalf of our suppliers.

Under the UK REACH definitions Preci-Spark is classed as a "Downstream User" and therefore we are not required to pre-register or register our products.

### It is our intention to:

- work closely with our supply chain in order to minimise and manage any potential risks associated with articles that contain substances of very high concern (SVHC).
- follow instructions on Safety Data Sheets and information provided on exposure scenarios.
- alert our customers if certain products that we use may contain an SVHC that are likely to exceed the maximum handling requirements (0.1% per annum).
- monitor any future changes of the UK REACH regulation and communicate to our customers when necessary.
- communicate information to our customers concerning hazards, appropriate risk management techniques and advise on safe condition of use.
- participate in REACH related customer surveys and this information helps Preci-Spark in understanding what resonates with our customers and identify areas for improvement in our outreach strategies.

On behalf of the Directors,

William H. Jones  
Director
